

Hi! my name is **Lucy**. I am five years old.

My favourite creatures are goldfish. I love their bright orange colour and how they swim around their tanks and never go to sleep!

Even though I'm the same as every other boy and girl I have something called Diabetes. Diabetes is a hard word to say but when I break it down it sounds like this – “Di – ah – beet – ees”, which isn't so hard at all.

All boys and girls need to be careful not to eat too many sugary things so that they keep their teeth white and their bodies healthy.
